Car Rental System

- **Admin**:
    - Manage users (add, update, delete customer, staff, and admin accounts).
    - Manage car inventory and pricing.
    - Track car rentals, returns, and maintenance schedules.
    - Assign cars to rental requests and manage availability.
    - Generate reports on car usage, rentals, and revenue.

- **Staff**:
    - Manage car rental requests and process returns.
    - Check vehicle condition upon return and schedule maintenance.
    - Assist customers with rental issues and queries.
    - Update personal profile and availability.

- **Customer**:
    - Browse available cars and book rentals.
    - Track rental history and manage upcoming bookings.
    - Make payments for rentals and extend bookings.
    - Update personal details and manage account settings.
